

Department:	Pharmacy Management	Original Approval:	12/14/2011
Policy No:	PM514	Last Approval:	09/05/2023
Policy Title:	Pharmacy Access During a Federal Disaster or Other Public Health Emergency Declaration Policy		
Approved By:	Clinical Services Leadership Team		
Dependencies:	N/A		

Purpose

The purpose of this policy is to provide guidelines for handling emergency prescription dispensing and early refill requests for beneficiaries during a federal disaster or other public health emergency response for all lines of business.

Policy

This policy applies when a Presidential major disaster or emergency declaration is issued or the Secretary of the Department of Health and Human Services (DHHS) declares a public health emergency, and the underlying circumstances are reasonably expected to result in a disruption in access to drugs. Community Health Plan of Washington (CHPW) will ensure appropriate and adequate prescription drug coverage for our beneficiaries during declared emergencies or disasters.

Community Health Plan of Washington (CHPW) partners with its Pharmacy Benefit Manager (PBM) in implementing an emergency prescription dispensing plan to ensure beneficiaries receive appropriate and adequate prescription drug coverage during declared emergencies or disasters. Table 1 lists the activities of the emergency prescription dispensing plan.

Table 1. Emergency Prescription Dispensing Plan Activities and Ownership

Activities	Performed by CHPW	Performed by PBM
Identifying and monitoring affected emergency areas via the Federal Emergency Management Agency (FEMA) and Department of Health and Human Services (DHHS) websites ¹ or in advance of		X
